DOMESTIC MATTERS.

Our eratic friend-the independent candidate for congressional honors-under the lead, and in singular harmony of diction with his noble confrier of the Scatinel, attempts a little amutty smartness towards us in a recent number of that journal. The readers of that sheet will no doubt, have smiled at his apt ess in the line of biography: In the come of this chek. red life, he says we once tried our hand st coopering. This may, perhaps be so, but we have no very distinct recollection of such intinacy with the barrel. If we had, we should not probably shrink from the acknowledgment it. The failing of a cooper we look diton an honorable one. We know some very especiable men, who make an honest and very Hable living at it, and our opinion is, that if our friend Dr. RICHMOND were to earn his Riot. read by devoting ten or twelve hours out of the wenty-four in some such laudable pursuit, he would make a less precarious business of it, than now, a add very materially to his stock of personal cateem and respectability in the world. The hint, however, is only a gratuitous one, and the wholesome lesson it teaches, may not, on that account, reach his convictions, however apparent it may corporations stand poor chances before a jury. be to others.

REV. GRO. THOMPSON, of the Mendi Mission. West Africa, lectured in the Presbyterian Church in this-place on Sunday afternoon and evenling, and also on Monday evening. His lectures were enhanced in interest by the exhibition of some of the idols worshipped by this benighted people, and various articles used in every day life, their habits and peculiarities, shieh were listened to with deep interest by full audiences. The information conveyed by these lectures, was more detailed and satisfacory than any to be gathered from any sources now within the reach of the public. The same and much more has also been embodied in a everal render than that of Lavinosrone. A w of these books have been left with H. Fasa short time.

dsome ifem in the list of our receipts, and we can but express the belief that the realls will in time prove of substantial account to our generous host. C. G. CALEINS. That's Thompson, all over. He's got heart

enough to supply a township of such men, as own balf busbel.

FENCE MOVEMENT .- The movement of fences and with the lines recently run by the survey of the village, has been begun in good carnest, and the trouble will all be got along with in a few days, though not without little asperity of feeling. Some portions the village will not be materially improved the change, but the necessity of making the finciple of uniform operation, seems to overp considerations of this kind. Some of our elligens are testing the accuracy of the county surveyor by calling in the aid of Mr. Collins of the East Village.

BARN BURNED. - We learn that a few evenings ago, the barn of J. M. Giddings-in the northwest corner of Cherry Valley, known as Bear Town-was barned to the ground, with its contents-evidently the work of ea incendiary .here seems to be a secret band of deperadoes that neighborhood, who are determined to drive out every good citizen and honest man from the region. This is the second time Mr. G. has suffered at their hands-a valuable lot of lumber having been destroyed some time er. - Sentind .

LARGE POTATOES .- Mr. J. B. WILLIAMS, of Bunker Hill, left with us the other day three petathes, the aggregate weight of which is sevounds. They look formidable, and one of m would extort respectful defference from the most enthusiastic admirer of this hearty and nutrious esculent, be he Celtic or Auglo citizen. The specimens are of the California species, very productive, and though of such luxerant and gigantic growth, are said to be exent for table uses.

To Cornespondents .- We have a communication dealing in merited, or unmerited strictures upan our Methodist and Baptist brethren, for the course pursued in withholding their houses from a returned missionary, which does not exactly suit us in tone, and the publication of College Departm't, Sentim'n 125 Ladies 24 149 which, we think would not subserve any good Preparitory Department end at this time. It is therefore omitted.

Novice.- The Farmer's Club will meet at the office of H. Fassett, Saturday, Nov. 6, at 2 niclock P. M. The meeting is an important one. All those who are interested, are requested to attend. THOR. A. The report of a Cabinet rupture is denied, but trouble exists, and will come to a head after the Message has been delivered. The cause of dissension is represented to be the positions taken in the Message on the Tariff. The most pressing difficulty, however, is that the Douglas Democrats in the House threaten to bult unless Secretary Cobb and another are dismissed. The President will listen to no terms, and when the explosion comes, the Cabinet will probably be reorganized in such wise as to be a unit against Judge Donglas.

Information has been received that there are 300 guns newly mounted on stone batteries at the mouth of the Parana. A large land force will be needed to turn this fortification from the land side.

Holloway's Pills-Chronic Dyspepsia cured. Holloway's Pills—Chronie Dyspepsia cured. Among the triumphs of this wonderful medicine over confirmed diseases at the stomach and spigacitron, the following is not the least remarkable. Edward sithinan, sged 51, residing at Hagerstown, Md., had been for eleven years a softener from tedigaction and the painful concomitants. His appetite wise irregular, his frame consisted, his skin of a livid, audicality hus, and he had a constant feeding of toner telton at the pit of the attraction, as if a bond were being drawn tightly around it. He was continually in a state of great toental as well as boddly distress, and, to use his own expression, "life had become irraneau to him." In the month of December has the commenced daining Holloway's Pills. Within three weeks thereafter all lift slaves symptoms had vanished. No religion has since occurred, and he is now as robust and active as any mass of his years in all Maryland. For disorders of the stomach, liver and bowels, the Pills are the only reliable remitdy in existence:

In this mitmen worshiping age, it is rare to In this fillimition worshiping age, it is rare to find a man place his usefulfies to the public, before his interest. During a late vielt to the 'City of Sphullis,' we were presented by a professional friend, to this Celebrated Cheudet, Dr. d' C. Avan, whose name is now perhaps, more familiar than any other, at this befolio of sickness, in this country. Knowing the unprecedented popularity of his nondicines, and the innernee sale of them, we had expected to find him a millionaire, and rolling in wealth. But not, we found him in his laboratory, busy with his laborators, among his cracibles, altimately, and reforts—giving his best personal care to the computation, on the virtues of which, thousands hang for health. We learned, that notwithstanding his west business, and its prompt returns in cash, the Doctor is not rich. The reason assigned it, that the material is costly, and he persists in making his perjacentous so expensively, that the next profit is small— Interious Jermer, Fish.

Dr. Roback's Scandinavian Remedies. In directing the attention of our renders to Dr. Roback's advertisement, we have no hesitation in saying that all he claims for his medicines is confirmed by certificates from all parts of the West. The language of these certificate is so carnest and gratful, and the curve refer to suffix a variety o. dissues, that it would be foily to question the restorative properties of the preparations. It appears that while botantzing among his native mountains, in Sweden, during a visit to that country some years ago, he collected a large quantity of rare medicinal here, unknown in this country, and by combining the liquida and solid extracts of those possessing powerful detergent properties, he succeeded in producing his celebrated Blood Parities and Blood Pills, which are said to exercise a more beneficial effect upon the fluids of the human body thou any other curatives in artistence. Dr. Roback's theory is, that all diseases originate in the blood, and it would seem that the rapid recovery of his patients, under a course of these dishectants, affords atrong presumptive evidence that his pathology is correct. Certain it is that the celebrity of his medicines increases daily, and that he has authentic proofs of their success in his possession. See Advertisement. Dr. Roback's Scandinavian Remedies: In
